National Taipei University of Nursing and Health Sciences(NTUNHS)

Entrance Examination of Graduate Institutes 2011

Institute/School: Graduate Institute of Long-Term Care

Course/Topic: Introduction of Long-Term Care

Format: Essay Question

No. of Question Sets: Either 5 of the Given 6 Question Sets

Allocation of Score/Points: 20 Points for Each Question Set

The following are several sets of description/situation/preface/question, they are some niches in the field of Long-Term Care. Based on your specific knowledge, skill, or experience, please respond to five questions in English or in Chinese/Mandarin as best as you can. If you respond to all 6 question sets, we will only choose the better 5 of them.

1. If the Long-Term Care (LTC) System or Scheme is mandatorily in our country, what are the key issues, workups, or tasks necessary to set up, construct or complete in recent years? Why?
2. What is the National Insurance Program for LTC or National LTC Insurance Program?
3. In Taiwan, we have launched National Health Insurance Program since years before, please describe briefly the chance of developing other health insurance program.
4. What is ICD? What is ICF? Please describe briefly the nature, significance, implication and application of ICD & ICF?
5. An aging process involves a great deal of changes somatically. Those changes may have tremendous impacts on the psychological and social

well-beings of the elderly. Please describe briefly the physical changes involving the aging process and their potential effects on the elders' psychological and social well-beings.

6. For the family of the demented elderly, dementia poses a challenge as never before in their existing history. Professional interventions are plausible for the family to face a time of tremendous trial. As a long-term care professional, you are called to assist a family with an elderly member having serious problem behaviors. Please describe the issues a family with a demented member may have to face and how you as a professional may come to assist to tackle them.
