 (A) demand (B) demonstrate (C) democracy (D) democratic

II. Reading Comprehension. 20%

Read the following passage and on the answer sheet, write your answer to each question by the letter (a, b, c, or d) representing the correct answer.

Cloning

Few scientific advances have created a media uproar like that seen over Dolly – the lamb cloned in Scotland from an adult sheep. While the advance is of undoubted scientific importance and may aid agriculture and medicine substantially, the same might be said of any number of other scientific advances in recent years. What is it about Dolly that creates such fear and unrest among the general public?

The fear of human cloning is of course at the heart of the public's discomfort. While cloning procedures are still inefficient, there seems to be no technical reason why it would not be possible to clone a human. Indeed, Italian scientists announced in 2001 that they were proceeding to do just that. Their plan to clone children for infertile couples was met with a storm of protest. Because cloning procedures are so inefficient, most embryos in such a procedure would not be expected to survive. Is it ethical to form so many human embryos condemned to die in order to make sure that one will live? The prospect of cloning humans raises many issues.

41. What are media?
 (A) People (B) Newspaper
 (C) Newspaper men (D) Newspapers and Television
42. What is Dolly?
 (A) A young lamb (B) An adult lamb (C) A young man (D) An old man
43. Are the people happy about cloning?
 (A) Yes (B) No (C) Probably (D) Almost
44. Did Italian scientists clone a human in 2001?
 (A) Yes (B) No (C) Probably (D) Almost
45. Why can't a cloned human expected to survive at this time?
 (A) Technological problems (B) Public uproar
 (C) Human protest (D) Human heart
