長期照護概論試題

注 意	1.請用中文或英文作答。 2.請標明題號依序於答案卷上作答。
-----	-----------------------------------

No. of Question Sets : Either 5 of the Given 6 Question Sets

Allocation of Score/Points : 20 Points for Each Question Set

The following are several sets of description/situation/preface/question, they are all niches in the category of Long-Term Care. Based on your specific knowledge, skill or experience, please respond to five questions in English or in Chinese/Mandarin as best as you can. If you respond to all 6 question sets, we will only choose the prioritized 5 of them.

- I . You are currently serving in a Long-Term Care facility as an activity specialist responsible for recreational as well as therapeutic activities for its 100 residents. Your supervisors require you to evaluate the outcomes of activities you designed for the upcoming six month. Please write an outcome evaluation proposal for this exam. You may want to include in your proposal the following issues: research design, sampling scheme, outcome indicators, and method of analysis. It is also highly recommended that you extend your discussion beyond the four issues above.
- II . Please discuss the current state of Long-Term Care service delivery system and provide a list of recommendations for its renovation.
- III . Long-Term Care has had its own evolving and developing process, it has been regarded as a specific category of academic & practical field until 1970s~1980s. Please, try to discuss the related implication and significance briefly ?
- IV . As you know, to establish a pertinent Long-Term Care scheme/system is an inevitable issue in our country, based on your experience in current promising countries/regions, which kind of foreign experience is worth reading ? And why ?
- V . Long-Term Care and its related issues are closely related with population aging or transition. Please explain and discuss in the context of our country (Taiwan) !
- VI . “Discharge Planning” has its own meaning or significance and even with the specific implication. Please discuss their linkage and the incoming trend.
