| 25. (A) could | (B) had | (C) did | (D) was |
| 26. (A) one | (B) once | (C) a time | (D) many times |

Using a cell phone is, no doubt, very convenient, and this convenience comes with a price. So you cannot be too careful in choosing a cell phone service plan, which determines how much you pay for your calls. Every plan gives you a 27 number of minutes each month for a set price. 28 a plan with enough minutes as the cost for "overage" minutes is 29 . To decide how many minutes you need, a simple math exercise is required. First, 30 the number of calls you make each day. Then, multiply that 31 the average number of minutes for each call. The result of that number multiplied by 30 will lead to the plan you need. 32 , remember that in the U.S. each call you make and received is charged. So, think about this 33 . Find out if you can 34 minutes and add them to the following month. Most importantly, don't forget the roaming charges. 35 you call from outside your service area, you will pay extra fees. Think twice before deciding on a 36 or you'll end up with bills you don't want to pay.

 36. (A) service call (B) service charge (C) service area (D) service plan

III. Reading 閱讀理解 (8 %)

There are many ways to get a date. If you know a girl and you want to know her better, you can ask her to go out with you. Another way to get a date is a blind date. This doesn't mean your date can't see. It means you never met your date before, and your date never met you before.

Sometimes when two people are just getting to know each other, they go out on a double date. They ask another couple to go out with them. That way everyone feels more comfortable.

37. A man will meet a woman in a coffee shop tomorrow. They have never met each other before. After the meeting, they may become a couple. What are they going to have tomorrow?

(A) A blind date. (B) A double date.
 (C) A concert. (D) A movie theater.

38. How many people are there on a double date?

(A) One. (B) Two.
 (C) Three. (D) Four.

Home is often referred to as the safest place in the world. But you might be surprised to know some of the most germ-filled places are in your own home. It is estimated that over 77,500 bacteria per square centimeter live in the kitchen sink area. The humidity and food debris breed bacteria easily. To keep it free from germs, clean the area with a disinfectant after use. Your bathtub is another place you should watch out for. Germs stay on the wet surface and multiply. This poses a serious threat to your health. Dry it with a clean towel and use a disinfectant to clean it weekly.

39. What is the underlined word it most likely referring to?

(A) Humidity. (B) Food debris.
 (C) Bacteria. (D) The sink area.

40. According to the passage, which is true?

(A) Stay at home and you can be free from any harm or sickness.
 (B) Drying the sink area with a clean towel is the best way to keep it clean.
 (C) The germs growing on your skin are more harmful than those on the bathtub.
 (D) Germs will grow on the surface of your bathtub if it's not dried after use.

標準答案
